

The AG Gazette

Models, machines, and matters of consequence

PARIS, WEDNESDAY 14 OCTOBER 2026 AFTERNOON EDITION · No. 2026-10-14-AFTERNOON ISSUED 17:59 CEST PRICE: COMPLIMENTARY

AFTERNOON EDITION — WEDNESDAY 14 OCTOBER 2026

Reporting window: 14 Oct 2026, 17:45 CEST to 14 Oct 2026, 17:59 CEST (Paris time). Issued 14 Oct 2026, 17:59 CEST.

No material verified developments since the previous actual edition, issued today at 17:45:11 CEST. We checked the last two days for discovery, then required a verifiable new fact after that cutoff. Earlier same-day announcements, older research, recycled commentary and unchanged stories are not repeated. Partial coverage and unverified leads are disclosed below; this is not proof that the wider news cycle was quiet.

0 NEW OR UPDATED DISPATCHES · 0 BACKGROUND ITEMS · PREVIOUS: [2026-10-14-INITIAL](#)

THE NEWS

No verified news in this window. This edition prints no new or updated dispatches rather than pad the page with unverified items.

DEVTO: ok
X: skipped-unconfigured

COVERAGE NOTES

- No material development after the previous issue at 17:45:11 CEST was verified. This is a bounded check, not a claim that nothing happened anywhere.
- Models, coding and agents, research, and infrastructure and policy were searched across a two-day discovery window; publication freshness was judged against the previous actual issue, not search crawl or discussion dates.
- The engine completed with 79 evidence items: 15 Reddit threads, 4 YouTube videos, 24 Hacker News stories, 12 dev.to articles and 24 GitHub items. Evidence counts are not independently verified news stories.
- Polymarket was unreachable due to TLS hostname verification failure; no odds were available and no TLS bypass was attempted. X was not configured.
- YouTube search succeeded, but only 2 of 4 videos had transcripts; the other subtitle requests hit HTTP 429. Its overall engine state is ok, with these lane failures preserved in provenance.
- Three post-engine web-search supplements and direct public-source checks were completed. Earlier announcements, unchanged repeats, undated intraday leads and commentary were not promoted to fresh dispatches.
- Reuters ASML and Bloomberg CFO article bodies remained blocked, including browser checks. Those leads are unverified and excluded; a date-only Tensormesh announcement could not establish post-cutoff publication.

ENGINE FOOTER

All agents reported back!
└─ Reddit: 15 threads | 1,297 upvotes | 851 comments
└─ YouTube: 4 videos | 425,871 views | 2/4 with transcripts
└─ HN: 24 stories | 2,063 points | 1,322 comments
└─ dev.to: 12 articles | 177 reactions | 39 comments
└─ GitHub: 24 items | 79 reactions | 343 comments
└─ Top voices: r/singularity, r/LocalLLaMA, r/LocalLLM

— No browser cookies, new services or credentials, paid enrichment, public publishing or schedule changes were used. Community reactions remain in the research archive; no old reaction is padded into an empty news edition.

THIS EDITION

The AI Gazette is a locally rendered digest. Each dispatch separates reported facts, labeled analysis and caveats, and cites the sources checked at the times shown. Background items are older or undated context, not new reporting.

Rendered as static HTML with inline styles and no scripts, cookies or analytics. Typefaces are requested from Google Fonts (fonts.googleapis.com, fonts.gstatic.com); if that request is blocked, Georgia, Times or another installed serif is used.
